

GFS Self Service in Axess

Graduate students, postdocs, and non-matric students have a view in Axess of the aid that has been entered for them in GFS. We hope to empower students to understand their own financial situation. As a GFS Administrator, it will be helpful for you to understand what students can (and cannot!) see. At this time, the views are available only to graduate students, postdocs, and non-matric students, not staff.

On their “My Finances” tab, they navigate to the Graduate Financial Support page two ways. They can either click on the Visit Finances Home Page then Graduate Financial Support will be one of the tiles they can select or go directly to page by clicking on Graduate Financial Support.

Clicking on Visit Finances Home Page will bring students to a central page with their account information, tiles, and other information that may be helpful for reviewing their finances. From there, they can select Graduate Financial Support.

Once a student is on the Graduate Financial Support page, they will have information about all Approved and Pending Approval aid lines entered in GFS. They DO NOT have access to any information about cancelled lines or those that have not yet been submitted to work flow.

If a person has more than one role, e.g. grad student and postdoc, they can switch between the views.

You can see a sample of the aid summaries for each population on the following pages. Within each view there is the ability to view prior GFS aid years, a button to View & Pay My Bill, and a Reminders box with information pertaining to that population. The sections can be expanded to show details about the funding for that section. Clicking on the hyperlinks will provide more information about the aid line, including the aid sequence number, disbursement date, and disbursement status if applicable.
